# ICARUS AT THE IATA DATA SYMPOSIUM IN ATHENS

The **Aviation Data Symposium (ADS)** is the unique global forum to learn about new Big Data, AI & Data Science trends, and network, with **5 specialized tracks** around:

- Passenger
- Safety and Flight Operations
- Air Freight
- Payment & Fintech
- Data Science & Technology

**ADS 2019** is preparing to welcome over **400 aviation industry and data professionals** from across the entire value chain and various functional domains.

The ADS plenary and specialized tracks cover a wide variety data topics across business and functional areas envisaged for aviation executives, leaders, commercial and technical professionals across:

- Airlines
- Travel agents, OTAs, TMCs
- Search and aggregation and distribution providers
- Travel and hospitality providers
- Financial services and payment providers
- Aircraft manufacturers and MRO providers
- Air cargo service providers
- Airports, ground handlers and ANSPs

**ICARUS will be at the ADS 2019 with a booth. Visit our booth to find out more about our beta platform and initial project results and give us your feedback!**

More information, registrations and program...

Co-funded by the European Commission.
